New York Cotton Market.

New York, May 11.—Messrs. Hubbard,

Price & Co. say: "Opening prices in the

New York market this morning were about

three points lower than last evening's figures

in response to an early decline of from 3-1/2 to

4½ advance advised from Liverpool. Subse-

quently quotations there improved slightly

and our market made a fractional gain in re-

sponse. August selling at one time as high

as 7-1/2. Liverpool closing figures were,

however, 3-1/2 below yesterday. The day

has been comparatively featureless. The

news from the Mississippi Valley is that

the floods have not yet done any serious

damage to the cotton crop. Should the Mor-

occoa fever collapse, as was stated yesterday

it had done, it would not much affect the

cotton region, as it is designed principally

to protect the sugar area. In Manchester yards

are reported dull and irregular, while cloths

are quiet. Southern spot markets are rather

quiet and free offerings reported, which are

taken mostly for continental account. The

Spanish and Green British still continues

and the lack of money activity following

the settlement of the lagotis is a decided

disappointment to the trade. The New York

stock is commencing to move slowly and

sales on the spot here to date aggregated 72

bales. Receipts at Memphis, 3-1/2 to 4
